Grade 1 Field Trip

Students explored the central idea “Our environment influences how and where we live” through a local community walk. They investigated the different types of home in our neighbourhood. They observed that many of the homes were apartment buildings, which were able to accommodate multiple families. They also noticed that while many of the houses were white, some families had decided to decorate the outside with different colour paint or wooden features. Students also put into practice their map reading skills as they navigated around by finding street signs, stores, and landmark features, like the Donau river. With World Environment Day coming soon they connected their previous knowledge from our waste unit through observations of how waste is disposed of properly or not within the local neighbourhood.

Our team gathered on Saturday morning to clean the bank of the Danube. Their action aimed at making the playing and walking areas clean for children to enjoy and play safe.

Sat 25th & Sund 26th of May

Congratulations to the first ISU team of the Duke of Edinburgh's International Award for their practice expedition in Bad Kohlgrub.

Their excellent navigation and problem solving skills lead them safely to the campsite & back to the train station. Two days of true team support & collaboration.

Cross the Ocean

I will log my tennis trainings and tournaments over the next 4 weeks and try to complete 100 km.

Join me in supporting the Manta Trust. Please follow the link in my bio ad donate under Liv. Your donation, big or small will help to protect manta rays and their habitats, thank you!

Together with my amazing Ocean Ambassador colleagues Sam, Tarun, Julia, Coco and Athaylia-Jade, and our Manta Trust captain Jen, we will be joining Team Manta in their 5200 km challenge to cross the oceans between Peru and Mexico!

We will be cycling, running, swimming, kayaking and playing tennins - all to raise money to help manta rays!

It will be fun and best of all, it is for a good cause:)
